Dr. Fabio RICCIATO

European Commission – Eurostat, Big Data Task Force, Luxembourg

Fabio Ricciato received a Laurea in Electrical Engineering (1999) and PhD in Information and Communication Technologies (2003) from University La Sapienza, Italy. In 2004 he joined the Telecommunications Research Center Vienna (FTW), Austria, first as Senior Researcher and then as Key Researcher. Between 2007-2013 he served as Assistant Professor at the University of Salento, Italy, teaching the courses of ``Telecommunication Systems" and "Fundamentals of Communications". Between 2013-2014 he was with the Austrian Institute of Technology (AIT), Vienna, leading the Business Unit "Dynamic Transportation Systems". Between 2015-2017 he was Professor of Telecommunications at the Faculty of Computer Science, University of Ljubljana, Slovenia, teaching various courses in the field of wireless networks and Software Defined Radio. In January 2018 he joined the European Commission as member of the EUROSTAT Task Force on Big Data. His current interests revolve around the modernisation of official statistics, privacy-preserving approaches to cross-domain data analytics and analysis of mobile network data for official statistics.
